Github: **github.com/atharvg07**| LINKEDIN: **linkedin.com/in/atharv-gunjal-b826bb251**

Skills

Programming Languages: Python, C, Java
Content skills: storytelling, SEO knowledge, blog or article writing, editing, Copywriting and Proofreading
Web Development: Flask, Django, FastAPI, Node.js, React.js, Next.js, PHP
Cloud & DevOps: AWS, Docker, Linux
Machine Learning & AI: TensorFlow, PyTorch, Pandas, NumPy
Databases: SQL, PostGIS, MongoDB, Supabase

Work Experience & Leadership

- **AIRPORTS AUTHORITY OF INDIA (Ministry of Civil Aviation)**
  - Software Developer Intern (January 9 2026 - present)
  - Developed AI-powered inventory management system for airport operations, working on real-world asset tracking and employee data management challenges faced by India's aviation infrastructure
  - Applied data science techniques to analyze operational workflows and implement predictive analytics for resource optimization, directly addressing live airport management scenarios.
- **Training and Placement Committee – Pillai College of Engineering (TPC-PCE)**
  - President (Jul 2025 – Present) | Vice President (Jul 2024 – Jul 2025) | Content Coordinator (Aug 2023 – Jul 2024)
  - Spearheaded strategic recruiter partnerships and large-scale initiatives including Government Job Fair 2025, while driving cross-department collaboration for workshops and industry programs.
  - Directed end-to-end placement operations across multiple roles, optimizing recruitment drives and leading student committees to boost participation and placement success
  - Orchestrated placement brochures, digital media, and communications to enhance branding while revamping documentation workflows for improved recruiter-student engagement

Education

Pillai College of Engineering New Panvel May 2022 - Jun 2026 B.Tech. in Information Technology
CGPA: 8.2/10
Relevant Coursework: Object Oriented Programming, Data Structures and Algorithms, Advanced Data Structures and Algorithms, Databases and SQL, Operating Systems, Computer Networks, Cryptography and Network Security, Cybersecurity Fundamentals (CND, SFP, ATSS), Web Development, Software Engineering and Project Management, Information Security and Risk Assessment, Cloud Computing and Virtualization

Ramsheth Thakur Public School, Kharghar May 2020 - Apr 2022
Senior Secondary Education, CBSE ***Percentage: 82.3***

Ramsheth Thakur Public School, Kharghar May 2018 - Apr 2020
Secondary Education, CBSE ***Percentage: 97.4***

Projects

- **Food Label Analysis and Risk Assessment**: Developed an AI system to analyse nutritional labels and predict food safety risks using data mining and predictive modelling; generated automated reports with visual insights.
- **Asset Management system for Airport Authority of India:** Applied data science techniques to analyze operational workflows and implement predictive analytics for resource optimization, directly addressing live airport management scenarios
- **Ecological Impact of Dinosaurs**: Analysed fossil records, climate models, and ecosystem data to study dinosaurs' environmental impact and their role in shaping prehistoric biodiversity.
- **Formula 1 Live Race Dashboard**: Built an interactive F1 dashboard using React, Vite, and Tailwind CSS with real-time car simulation, lap timing, leader board tracking, and dynamic race conditions.

Achievements and Certifications

- **Winner: Smart India Internal Hackathon 2024**.
- **Winner: 2x Extempore 2023 and 2024 in ALEGRIA**
- **Winner: 37 co-curricular podiums in diverse competitions**
- **Certification : Simpli-learn Skill-up HTML, CSS, JS, PHP, DJANGO**
